

Art Gallery

Compact and modular painting storage
for galleries, museums, art libraries and art collectors

Flexible, creative modular design adapts to customer needs

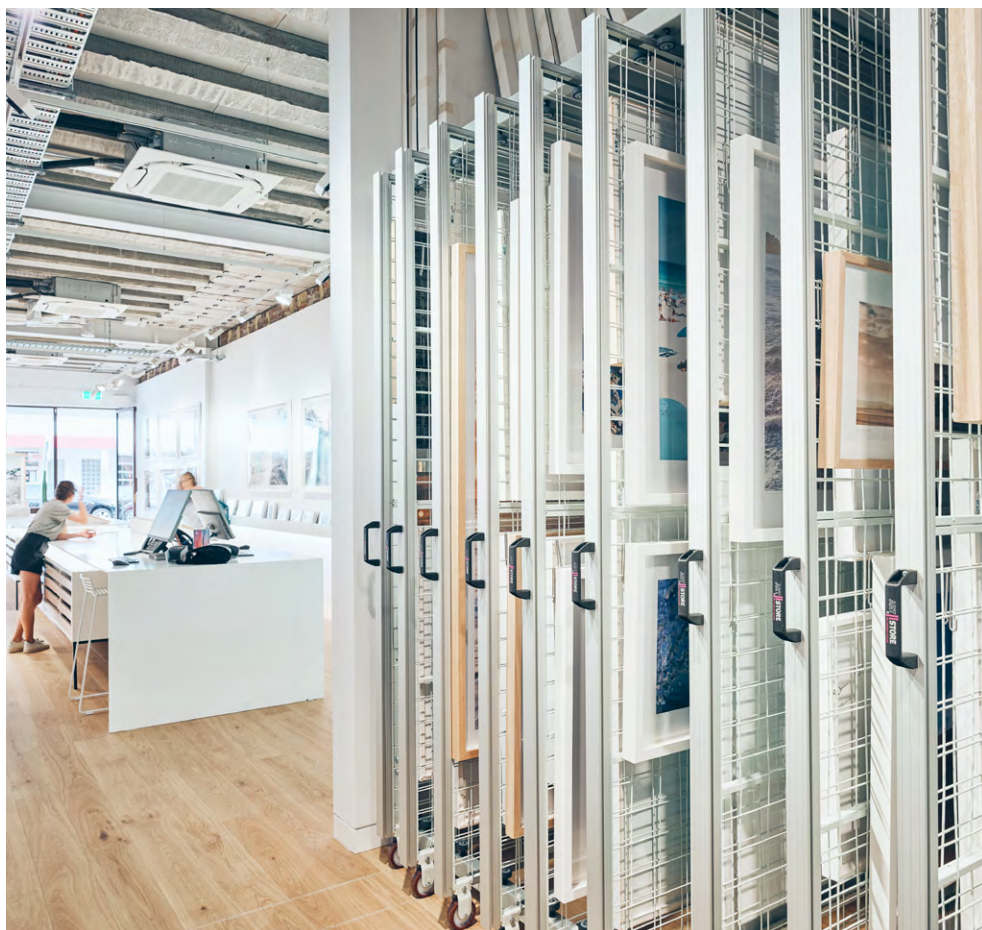

ArtStore, a brand of Kern Studer AG, specialises in the development, design, manufacture and sale of painting storage systems.

Since 2004, we have been supplying proven and comprehensive solutions for the entire range of art storage, particularly in the field of painting storage systems.

Our goal and aspiration is to act as an innovative partner in the field of art storage.

Our service

- ▶ Comprehensive advice, measurement and planning
- ▶ Customised solutions
- ▶ CAD planning in 3D
- ▶ Budgeting and calculation included
- ▶ Self assembly Option with manual provided
- ▶ Delivery, installation and maintenance in the service offer

Art Gallery

Modular, compact, cost-efficient

Art Gallery – Compact and modular painting storage

The Art Gallery system is a high quality system to organise and compact the storage of paintings. The clever and cost efficient design delivers an ideal storage and display solution. It is ideal for single storey height storerooms and retail spaces.

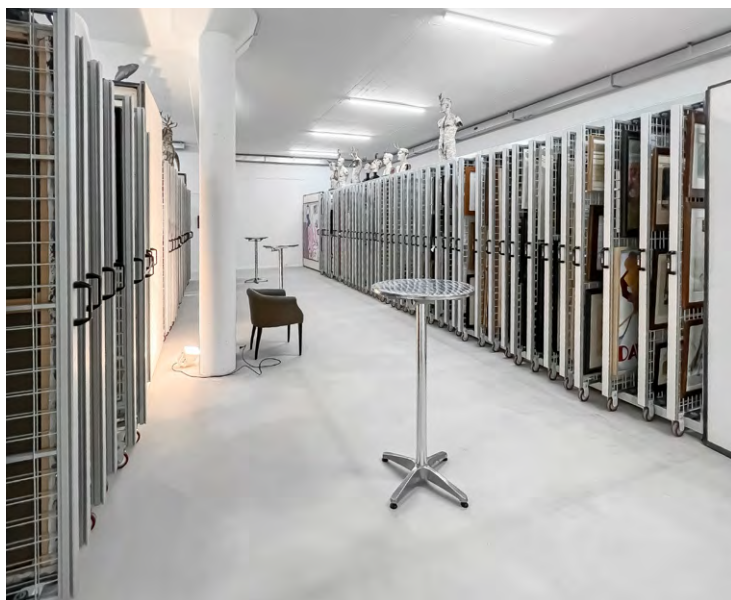

With an Art Gallery system, you can store your collection in an organised and space-saving way and present it in a targeted manner – similar to a library.

Benefits for the user

- ▶ Creates and expandable Art library
- ▶ Creates excellent sales potential with organised art viewing
- ▶ Cost-optimised solution thanks to standardised modules (see page 10/11)
 - 2 standard heights
 - 5 different widths
 - 3 different depths
- ▶ Modular concept, expandable as required
- ▶ Simple installation and removal
- ▶ Easily relocatable
- ▶ No screw connections in the floor or wall necessary
- ▶ Suitable accessories, options and extensions (see page 8/9)
- ▶ Individual and customised variants on request
- ▶ Standard colour RAL 9018 papyrus white – other colours on request
- ▶ Long-term use confirmed by various references

Gallery Showroom Display

Painting storage in the exhibition area

Gallery Showroom Display

Combining storage and display in small gallery spaces, delivers an elegant presentation method to display your entire collection. Expand your storage capacity cost-effectively and get a quick and easy overview of your collection. The easy pullout panels enables seamless presentation of your clients sales options.

Thanks to its flexible configurations, the Art Gallery can be used in a variety of ways in your exhibition area to visibly store paintings. Thanks to the numerous customisation options, the systems can be optimally adapted to your exhibition area.

Galleries and art libraries appreciate the possibility of an organised and structured presentation of the paintings, even where space is limited.

Closed systems

Enclosures and full closure

© RGO Storage Solutions

Wide range of enclosure options

Discover our customised solutions such as enclosures or full closures. The closed versions of the Art Gallery combine aesthetics, security and discretion.

Depending on your requirements, you can choose either completely closed systems with powder-coated sheet steel, a choice of wood or sheet metal on the fronts of the mesh pull-outs or equipped with an electric/manual roller blind on the front.

Please do not hesitate to let us know your requirements. We are at your disposal.

© RGO Storage Solutions

Closed systems

- ▶ Security
- ▶ Privacy and discretion
- ▶ Dust protection
- ▶ Improves conservation standards
- ▶ Presents as elegant display furniture
- ▶ Sheet steel enclosure in RAL 9018 papyrus white – other colours on request
- ▶ Individually lockable grid pull-outs on request
- ▶ Can be fitted with roller blinds at the front
- ▶ Can create secured rentable art storage

Picture hooks, shelves and other accessories

Safe attachment of paintings

Discover our wide range of accessories, such as shelf plates, picture hooks, various brackets, painting fixings and anti-tilt devices. We have suitable solutions for almost any weight to be supported or desired hanging options.

To transport your paintings easily and safely, we recommend our picture trolley. It has four swivel castors, two of which have a stop function. Thanks to its sturdy construction, the trolley is ideal for transporting paintings of different sizes.

Contact us, we will be happy to advise you and help you choose the right accessories.

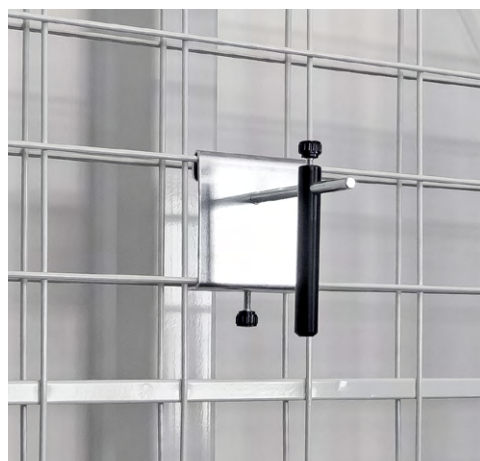

Painting hook INOX single, with snap-in lug for secure hold, load up to 10 kg or 30 kg,

Painting hook INOX double, with snap-in lug for secure hold, load capacity up to 50 kg

Painting hook INOX type L, with 2 holes for fixing on the lower wire, load capacity up to 70 kg

Drop down safety accessories for shelves

Shelves to hang in

Single holder for textile rolls

Add-ons

Many options for painting storage

1 Work tables

Our flexible table system, which can be extended at any time, is particularly suitable for universal use. Mobile or stationary, with or without height adjustment, they can be connected to form a large work surface if required. Unwinding and cutting devices for film or paper for wrapping exhibits are also available.

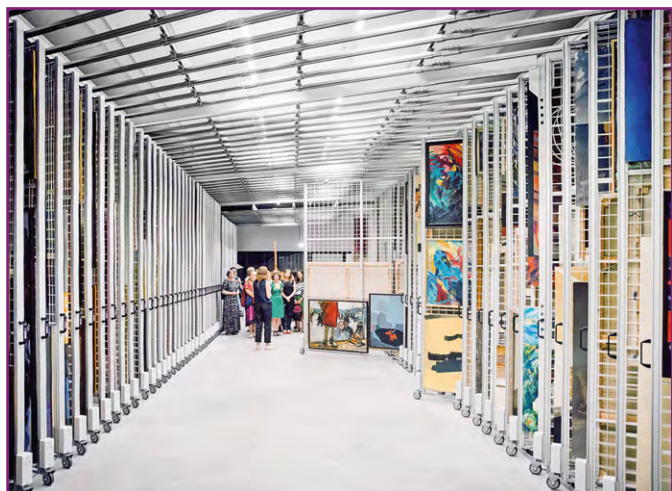

You can find more information on work tables at: www.ergo-line.ch

2 Shelving racks

Shelving racks are perfect for storing smaller paintings, photos and sculptures. Optionally, they can also be fitted with threading rods.

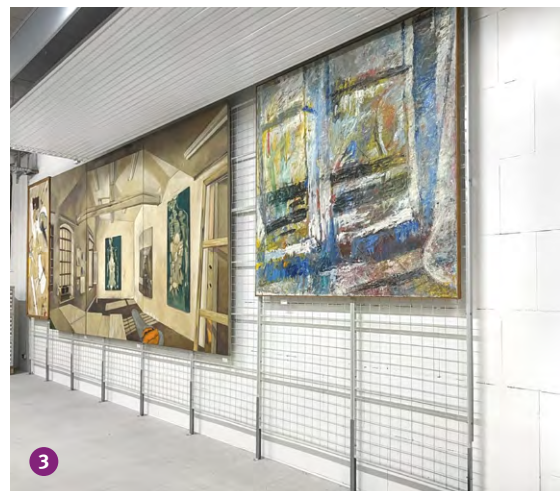

3 Fixed wall grids

This type of painting storage is suitable wherever free walls are available. The grids can also be mounted directly on the sides of an Art Gallery installation.

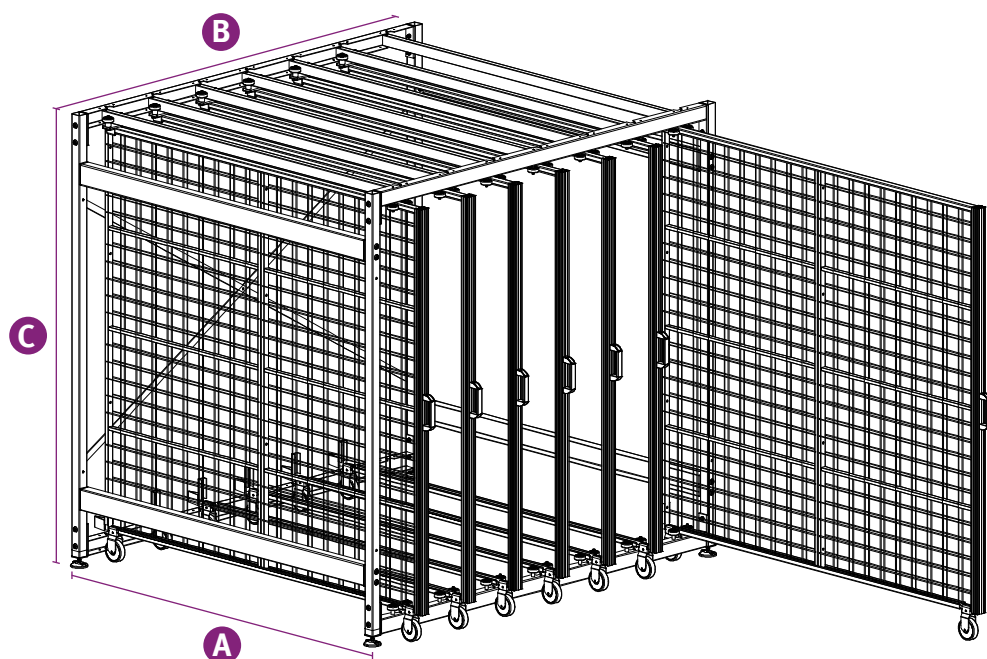

Good to know!

We also have customised solutions for large painting depots.

Technical information

Basic and add-on module in RAL 9018 from stock

Dimensions modules

The dimensions given refer to the outside dimensions of the module without extended panels.

Art Gallery individual

The specified standard dimensions do not fit or you would like a different colour?

We are also happy to produce the Art Gallery to your specific dimensions and specifications (for an additional charge).

Simply get in touch with us.

Standard basic module from stock (in mm)

Racks	A Depth	B Width	C Height	C Height
